DB 20

Small in stature but big in style, the DB20 has returned for 2022 with an all-new look. Popular amongst Tao Motor dealers and customers alike for its durability and affordability, the DB20 is now even sturdier thanks to the now powder-coated frame, color matched to the vehicle. Debuting now in brand new color options with eye-catching decals and a wealth of color-matching features, riders of all sizes will be amazed that such a sharp bike can be so simple to ride.

For young riders new to the world of dirt bikes, the DB20 is perfect for those early days of riding. A simple press of the electric start button is all you need to get going. With a fully automatic 107cc engine and all-new throttle assembly, our smallest riders can cruise comfortably, without worrying about shifting gears. And for the youngest riders who are just getting started and need a little extra assistance with balance, we offer training wheels that can be easily attached to the rear end and removed when the time is right. Parents will find comfort in the front and rear hydraulic disk brakes, meaning their young rider can stop at a moment's notice. New adjustable elements like the rear shock and brake levers guarantee every rider, big or small, can ride comfortably and smoothly, no matter their skill level. Whether you're new to dirt bikes or a more advanced rider, the DB20 provides nothing short of an awesome riding experience.

DB 20
