DB 24

When those young riders start growing, making sure they're on the right sized dirt bike is important. When they've outgrown the DB20 yet aren't quite ready to go full size, the DB24 is the ultimate mid-sized dirt bike. Joining our newly redesigned lineup, the DB24 returns with a new contemporary exterior and color-matching powder coated frame. With no detail left untouched, riders young and old can ride hassle free thanks to some awesome upgrades.

Powered by its 107cc semi-automatic engine, a simple turn of the key and a brief kick start are all you need to get the DB24 fired up. The easy to reach foot shifter gives younger riders an early lesson in shift control while the handlebars can be easily adjusted forward or backward for better reach. The improved throttle assembly allows riders to speed through the hills with minimal effort and our new adjustable rear shocks mean a much more comfortable ride. Parents will find comfort in the front and rear hydraulic disk brakes, meaning their young rider can stop at a moment's notice. All new colors and designs graze the exterior, complemented by matching features top to bottom and front to back. With a ground clearance of eight and a half inches and a seat height of almost 30 inches, the DB24 will provide hours of fun for every member of the family.

DB 24

FEATURES

- ▼ Aluminum folding gear shift lever
- ▼ Super soft hand grips, color matched to vehicle
